WONDERGLASS

Each day, for the briefest moment, there is a certain slant of light skimming the surface of Venice's lagoon. The result is a peculiar lens effect, drawing light within the water's body, igniting the canal's deepest recesses. Fluid arrests this moment of transfiguration: a ripple of light, emanating from within otherwise calm waters.

MATERIALS

Vessel | Blown glass

Rod | Aluminium

COLOUR

Vessel | Crystal

Rod | Black

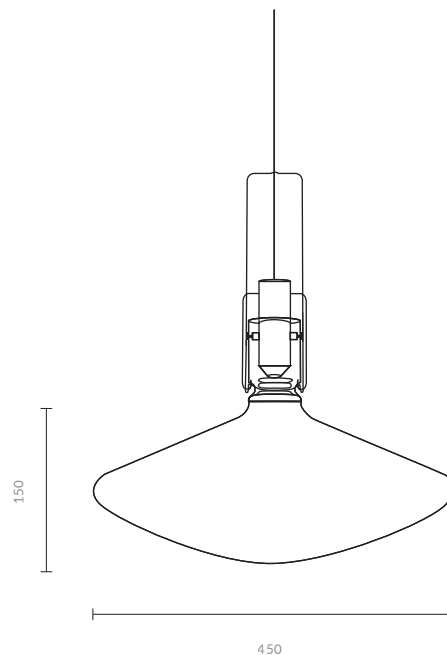

DIMENSIONS

Ø 450 x H 150 MM

LIGHT FITTING

COB LED | MAX 5W | 3W | 3000K | 24V | DC

Standard cable length is 2m

Bespoke solutions also available
