OBSIDIAN FLOW[T]

by Nao Tamura

WONDERGLASS

A limited edition of Nao Tamura's celebrated Flow[T] chandelier, Obsidian Flow[T] draws inspiration from the reflections of the Venetian cityscape shimmering in the evening water, hinting at an imaginary city below the moving surface. There is a border between the world under and the land above. In the city of Venice, where the real and fantastical coexist, this chandelier embodies the beauty of duality.

Available as a set of 5 pieces minimum in a limited edition of 12 sets.
