SPECIFICATION

WONDERGLASS

GLASS AND WOOD PENDANTS

by Richard Woods, 2022

WONDERGLASS

The pattern and texture that are created in the instant of pressing ink or paint onto the print block capture the moment the work is made and become a trademark to both the process and the finished product. The moment the fluid glass hits the cold air is the moment the object is formed. The process that printmaking and glass production share allow for a conversation between the image of the work and the process of how it was made.
