WONDERGLASS

VENETIA

by Elisa Ossino

WONDERGLASS

Venetia is inspired by the colors and glow of the lagoon, and the city from which it takes its name. The design makes it possible to create partitions through the use of Murano glass tiles obtained by fusion, perforated and bound together by transparent threads. The backdrops can be modulated into different shapes, resulting in linear, curved and cylindrical walls of various sizes.

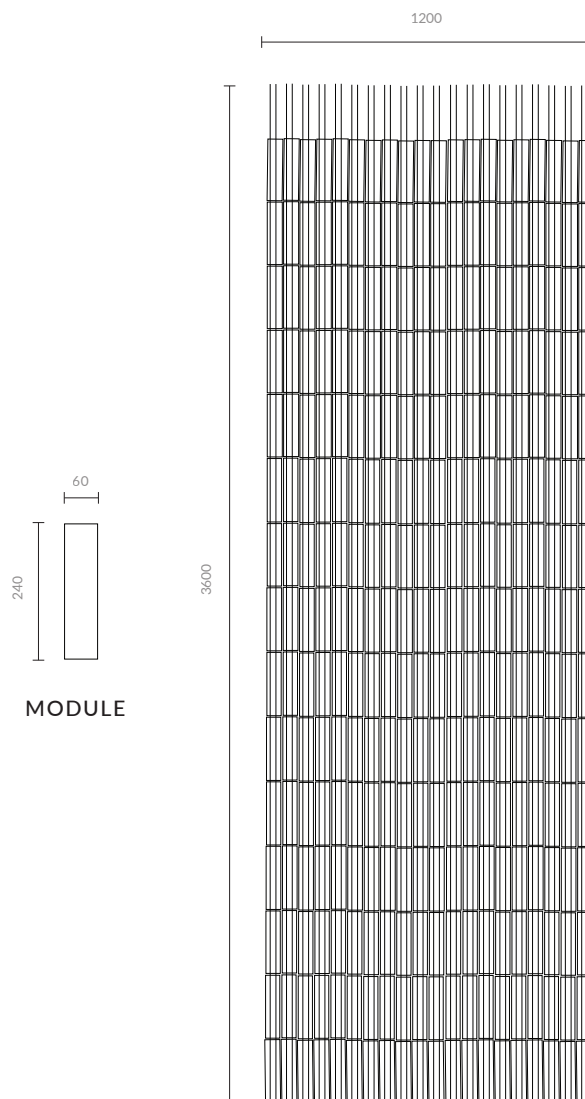

MATERIALS

Fused glass

DIMENSIONS

W 1200 x H 3600 MM

COLOURS

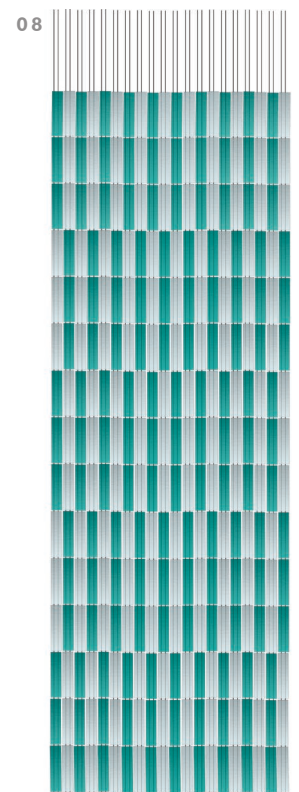

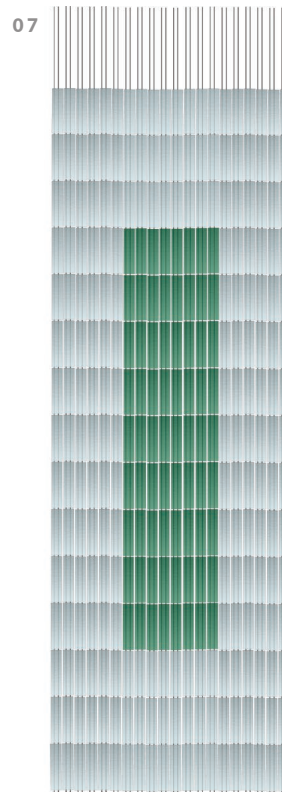

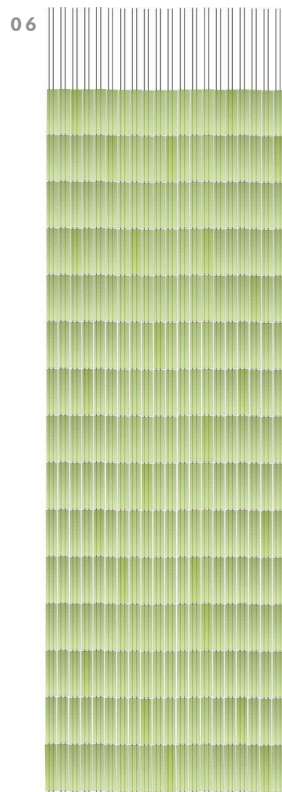

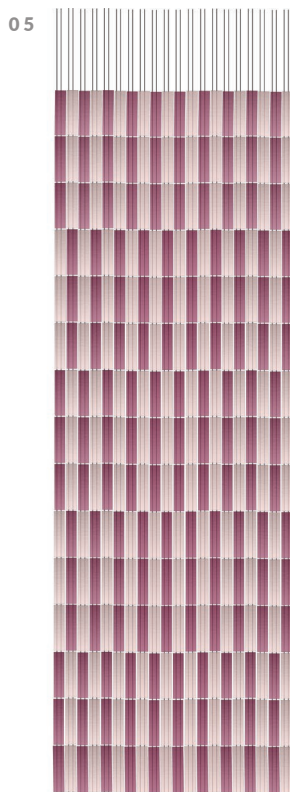

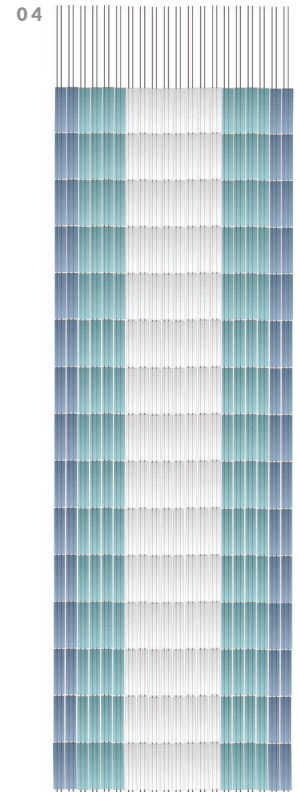

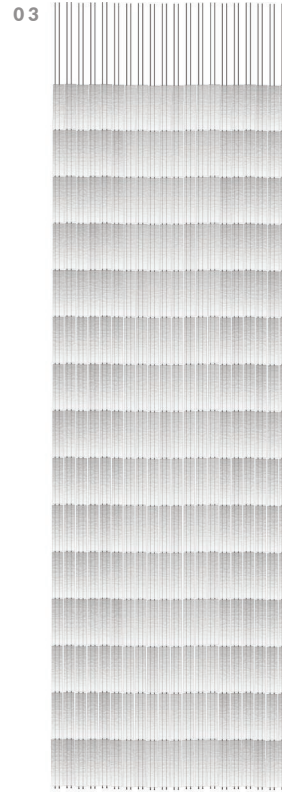

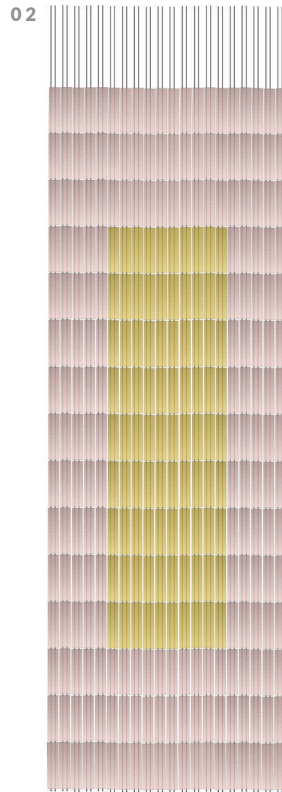

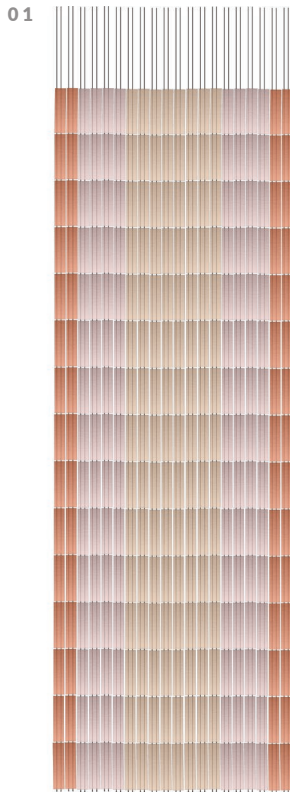

Bespoke solutions also available

RECOMMENDED COMPOSITIONS

WONDERGLASS

The following colour options are designed by Elisa Ossino Studio.
